Your Comments: I'm a frequent boater on the Wilamette and have been for more than 30 years. I've reviewed the EPA's proposal and believe it doesn't do enough to protect this river from terrible damage. Plan G just doesn't go far enough. We should extend the DO NOT EAT FISH from the river to ALL PEOPLE, not just pregnant or breast feeding women. Also the so-called cleanup leaves way too much polluting sediment in the river and adds a ridiculous "watch and see" clause. We've watched. We've seen. NOW CLEAN IT UP! And make sure that the polluters pay and do their share of the cleaning. This is only going to get worse if the proposed cleanup plan remains as is. The EPA is supposed to protect the environment, not just stand by and watch it degrade.
PLEASE!!!
